ELECTRICAL SYSTEM:IGNITION

General Motors LLC (GM) is recalling certain replacement flip-key ignition transmitter assemblies sold as replacement equipment for 2010-2015 Chevrolet Camaro vehicles. GM dealers may have inadvertently sold these assemblies as replacement keys despite them having been recalled under NHTSA recall number 14V-436 (GM number 14294) when they were the original equipment assemblies. The driver may accidentally bump the ignition key with their knee, moving the ignition out of the run position and turning off the engine.

Classified sites price range

Approximate price if you were to purchase this vehicle from a dealer

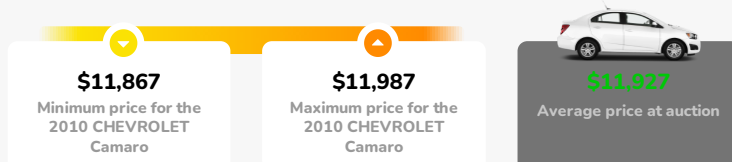

Market price analysis is based on a vehicle's history such as vehicle class and age, number of owners, accident and damage history, title brands, odometer readings, etc. This information is used to compare the vehicle's favorability against the entire market of vehicles.

Auction price range

The price at which the dealer would purchase this vehicle

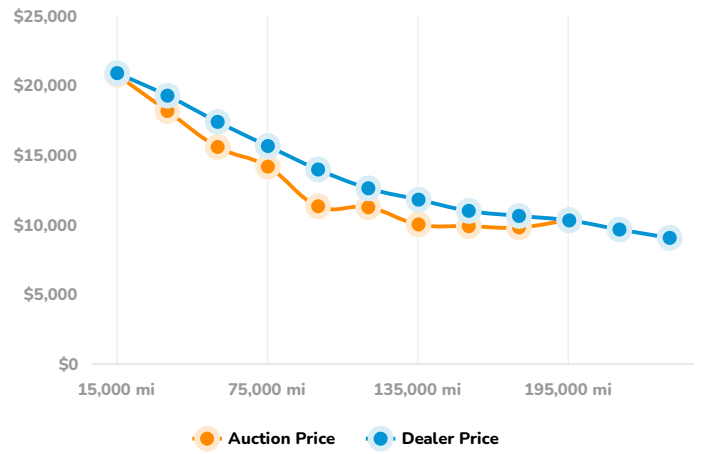

This price is typically only available to dealers who have access to the auctions. For this reason this price is not usually used as a base for negotiations
