

Jet-Hot's™ No-Nonsense, Simple Warranty

- 1) Jet-Hot's high luster coated components are guaranteed against sub-surface rust and corrosion to the original purchaser for as long as they own the component(s). Jet-Hot™ will provide 100% of the cost to recoat the component(s) for a period of three (3) years if sub-surface corrosion has formed over the coating. Commencement of warranty is effective beginning the shipment date from Jet-Hot. The owner of the component(s) is responsible for freight charges to and from the respective Jet-Hot facility.
- 2) Sub-surface rust and corrosion that occurs after three (3) years will be recoated at 50% of the current coating services cost. The owner of the component(s) is responsible for current stripping and freight charges to and from the respective Jet-Hot facility.
- 3) Stains, oxidation and areas damaged by exceeding temperature limitations of the coating during the first three (3) years will not be warranted but will be recoated at 50% of the current coating services cost. The owner of the component(s) is responsible for current stripping and freight charges to and from the respective Jet-Hot facility.
- 4) Components that require modifications after being coated may require a full recoat charge and the parts will be evaluated if a stripping charge applies.
- 5) Jet-Hot performance engine component coatings are warranted to be free from workmanship defects at the time of installation.

This warranty does not include the following:

- A) Failure to properly install or maintain coated components as outlined in Jet-Hot's "How to maintain" information sheet included with this packet.
- B) Misuse, abuse, unauthorized repairs or coating damage due to modifying the component.
- C) Cost incurred or related to removal, replacement and other issues with respect to downtime of vehicle such as towing, storage, etc...

PLEASE BE ADVISED THAT ALL WARRANTY WORK MUST HAVE THE ORIGINAL INVOICE (OR COPY) WITH THE RETURNED ITEMS. WARRANTY IS VALID TO THE ORIGINAL PURCHASER ONLY.
