

December 27, 2022

Dear Tony,

According to our records, your S/N 2G2FV22G322104103 is a 2002 white WS6 with T-Tops and a manual transmission. It was converted by ASC June 26th, 2001 and was our build number 1,301.

The 2002 model year WS6 breakdown is:
12,517 "regular" (non-Collector Edition) WS6s built
10,888 T-Tops
6,622 manual transmissions
1,150 white

With your specific combination (white, T-Tops, manual transmission), we built 455.

We received the regular Trans-Am's from GM then converted them into WS-6 Trans-Am Firebirds. They received unique wheels, a new hood, special air-box, badges and trim. We then shipped the cars back to GM and they sent them to car dealers.

I hope this information is helpful.

All the best, sincerely,

Marcus A. Shelley
Retired - ASC Incorporated
